AI PROMPT ENGINEERING FOR INSTRUCTORS

Learn how to use large language models (e.g., Hopkins AI Lab, ChatGPT, Co-Pilot, Claude) to help with common teaching tasks including writing test and homework questions, generating images, and writing learning objectives. Attendees will have a chance to apply these prompts to their own courses during the workshop.

SEPTEMBER 30, 2025 | 3:00PM - 4:00PM | ZOOM
